- The **ISB980** - 10.50 metres (16' 4") long.
For 2 adults (or 3 children) plus instructor.
- Slope angle instantly variable between 9 and 20 degrees.
- Surface speed variable with wireless remote control.

QUALITY WITHOUT
COMPROMISE

For skiing and snowboarding

- ...Whatever the weather.
- Learning is 8 to 10 times quicker.
- Angle and speed are set to meet clients' level.
- A high level is achieved quickly.
- Skilled skiers can make tight turns.
- The mirror enables you to monitor your progress yourself.

OUR SKISLOPES ARE
HIGHLY DURABLE

Suitable for beginners' lessons and race training:

The S1 Swiss race team used a Maxxtracks slope for conditioning at Interlaken, Switzerland. Roman Zenhausern's training contributed significantly to his World Cup win.

OUR INDOOR SKI SLOPES USED BY BEGINNERS
AS WELL AS WINNERS OF OLYMPIC AND WORLD CLASS MEDALS

Benefits of Maxxtracks slopes

Maxxtracks skislopes are highly durable:

- Made with top quality components.
- Minimal maintenance. Very low operating costs.
- Quiet (less than 65 decibels).
- Hydraulic front bar (optional).
- Specially developed surface 'Maxx-Grass™':
 - Highly durable surface material.
 - Achieve perfect balance, edge precision, control of rotation.

We offer

- Installation on a turn-key basis by our engineers.
- Our slopes meet European **CE** and American (UL) certification compliance.
- Management consultancy.
- Location evaluation and building advisory.
- Dedicated technical support, on site or remote.
- Decades of worldwide 'hands-on' experience.
- High level training of your ski and snowboard instructors.
